On Motion of R.P. Andrews
the following electrical regulations were adopted:

J 18th 1921

Mayor Roberson
Chapel Hill, N.C.
Dear Mr. Roberson:-

Referring to the action of the City uncil in appointing me Electrical Inspector for Chapel hill you ll recall that at that time I suggested that there would be certain ules of the National Code that would have to be interpreted by me nd applied to our local conditions. In order to make it possible for to hold all of the men doing wiring in Chapel Hill to the same stan rd I have been told by the State Inspector that it will be necessar for me to get the Board of Aldermen to pass as local rules any of wh h there might be any question raised by the said wiremen as being tricter that called for by the National Code. I am, therefore, asking at the following be brought up for discussion and if they meet wh your approval, they be made part og our local laws, and as such a opy be sent to each of the men wiring in Chapel Hill.

I have been able to get some of the en to acceed to my requests on these matters, while others are n so disposed.

1. Entrance Switches must not be more an six feet from the floor.
2. Taped joints must have two full cou es of rubber tape, half lapped, and two full courses of fric on tape, half lapped.
3. In making branches, taps, cut-ins etc, a knob must be placed within two inches of the joint.
4. When one wire crosses another, the c ssing must be protected by having a tube on one wire, this t e to be held in place directly under the other wire by tw knobs, one at each end of the tube.
5. Unless using a socket e which has a strain bushing approves by the Local Electrical Inspector, k ots must be tied in all sockets. Knots must be always tied in roseattes.
6. A suitable meter board must be used on all walls, these boards to be installed by the wiremen.
7. Entrance switches to be put on the eft hand side of the meter outlet.

If any discussion is desired on the above su gestions I will be glad to come before the Board and explain the reas ons behind this request.

Yours very respectfully

John E Lear

The Board then adjourned

W.S. Roberson
Mayor
