

CITIZENS' PETITION REQUESTING:

(1) EXPANSION of THE SUSTAINABLE COMMUNITY VISIONING TASK FORCE

(2) A STUDY AND REPORT END DATE NO LATER THAN DECEMBER 7, 2009

Whereas the “Sustainable Community Visioning Task Force” has been created by the Town Council to consider matters of growth, including location, type and intensity of new development, we the undersigned hereby provide the following for consideration by the Chapel Hill Town Council.

The Urban Services Boundary and the Rural Buffer, designed to minimize urban and suburban sprawl, has focused growth and development as planned. As our town continues to grow, decisions on where that growth should be concentrated will have a great impact on the future sustainability of our community. How much density should be encouraged along existing transit corridors, in the town center and existing commercial hubs will dictate the successful expansion of our transit options, efficient use of existing infrastructure, the minimization of environmental issues, maximization of local employment opportunities and increased and more balanced tax base revenues.

We support Council’s decision to create the new Sustainable Community Visioning Task Force to explore these growth issues. The Task Force will take the place of a much-needed review of the Comprehensive Plan as well as the Strategic Planning process that the Town Council had previously initiated.

Given the gravity of the subsequent decisions, we feel it is imperative that the Task Force has sufficient breadth of opinion from all stakeholders as well as the expertise needed to tackle the complexity of the issues involved. As currently constituted, we feel the task force has too few members and lacks representation of some key constituencies that will help it successfully complete its charge and gain the credibility needed for broad community buy-in of its recommendations. The current proposed make-up of the Task Force is as follows:

- Two Planning Board members
- Transportation Board member
- Sustainability Committee member
- Justice in Action Committee member
- Business Community representative
- 5 Citizens at-large

We respectfully request the Task Force membership be broadened from twelve to eighteen, with the additional six members to be chosen from the community at-large. We further request that of the at-large members, efforts should be made to include representatives with backgrounds in the following areas:

- Small Business member
- Downtown Business member
- Developer/Engineer/Designer/Planner
- Large Business member
- UNC - Chapel Hill Official
- UNC Health Care Official

We additionally request that the Council act make this process one of their highest priorities and that the Task Force be required to provide its report and recommendation back to the Council by December 7, 2009.

CITIZENS' PETITION REQUESTING:**(1) EXPANSION of THE SUSTAINABLE COMMUNITY VISIONING TASK FORCE****(2) A STUDY AND REPORT END DATE NO LATER THAN DECEMBER 7, 2009**

The following citizens thank you for your careful consideration of this matter.
