

CH Town Council 5th seat

Published by Chapel Hill Citizen on Oct 10, 2009

Background (Preamble):

Voters should choose the person to replace Bill Strom.

Petition Text:

We are requesting that the current open seat be filled by the person who gets the next most votes to the top four candidates in the upcoming November election, and who has also filed the application for the open seat. We recognize that you can't make a legally binding commitment, but we believe the voters deserve a public declaration by the Town Council members as to where they stand on our petition.

We ask that you accept this petition unanimously tonight before early voting begins on October 15th. We request that you not refer this decision to staff for a later time as this body is the only final arbiter of this crucial issue.

This seems very much like something the Easlys would do.

I feel the position should be filled by electetion vote.

I agree with the town council seat being filled by the next highest vote getter in Nov. election. I do not agree with the Town Council or Mayor appointing the open seat vacated by Bill Strom.

I am someone who has publicized this local election to over 1,000 Chapel Hill homes by Oct. 12 afternoon. Most ordinary residents are disgusted by the machinations of the customary political bloc elite in our town and want change. They also want mostly better lighting, the bigger Library we all need, and more goods and services with convenient parking downtown. Let our new Town Council appoint the Strom-controlled Council seat.

Democracy only prevails when the decisions are left to the people which whom Democracy represents. Let the people VOTE.

Why not give the voters a say?

Town council is not a club for anointed cronies but a democratically elected institution. Open the 5th seat or in other words declare that the 5th place will be nominated.

Town Council should be fully elected, except in an emergency, such as a death of a member.

The town council should support this petition as the democratic solution. It would be a signal that stacking the council with friends is not acceptable.

Isn' t this surprising?

The voters should make this decision!
