

Combined Comments Related to Text Amendment Under Consideration and Shelter Concept Plan - After November 16, 2009 Public Hearing

From: Mary U. Andrews [mailto:muandrews@nc.rr.com]
Sent: Sunday, November 15, 2009 8:53 PM
To: Town Council
Subject: homeless shelter

Mike and Mary Andrews, long time residents of Chapel Hill, support the Planning Board's unanimous recommendation to eliminate any cap on beds for the IFC's shelter.

Every person deserves a bed! That is not asking too much of any of us.

Subject: IFC men's homeless shelter: Show us the data

IFC men's shelter: Show us the data

The request of the Inter-Faith Council (IFC) for a special use permit to construct a homeless men's shelter at the corner of MLK and Homestead has met with considerable opposition, and rightly so (see CHN article, 10.25.09, and Marc Joseph's letter, 11.08.09). IFC needs to find a site where inevitable loitering of adult men, homeless or not, will not be a problem.

IFC apparently feels that the "homeless" characteristic is the sole concern, claiming "homeless aren't any more likely to abuse drugs, suffer mental illness or perpetrate crime than the general population [*italics added*]" (IFC's Chris Moran, CHN, 10.25.09). Is that creditable? Consider that:

- . 23% - 37% incidence rates in those three categories have been reported for homeless men elsewhere¹,
- . Chapel Hill Police have reportedly issued 39 reports and made 25 arrests related to 100 W. Rosemary St.1, site of IFC's Community House, already this year, and
- . IFC's Community Service on Main Street has a "Ban List" of 60-70 names with dates and types of offense, mostly from the Community House. The offenses range in severity and include assault and fighting.

Mr. Moran, the burden of proof is on you, not on others to disprove your

hypothesis. Show us the data so it can be tested statistically. And consider opening your records for the homeless shelter, with names redacted.

Subject: Citizen Opposition to LUMO Text Change--Please copy for 11-16-09 public hearing

Dear Mayor and Town Council Members,

I am unable to attend tonight's town council meeting (I will be watching our children while my husband attends the meeting). I wanted, however, to voice my strenuous objections to the text change to the land use management ordinance that would amend the definition of "shelter." Please copy this email for distribution to the town council this evening.

I register my strong opposition to the text change based on 3 factors:

1. The text change is premature (since no SUP requesting a 52-bed facility has yet been presented by the IFC). At the 10-20-09 planning board meeting, the planning board suggested that the text change does not exist only for the men's shelter, and indeed two chapel Hill shelters are currently NOT in compliance with the 25 resident ordinance. The planning board suggested that the text change needs to happen to bring these two facilities (Homestart and the current men's shelter) into compliance.

But the issue comes up NOW as a direct result of of the proposed men's shelter Concept Plan (According to Town Council Resolution 2009-06-08/R-2). While I understand that the text amendment does not exist only for the men's shelter, the expedited process for the text amendment is a direct result of the IFC's 4 May 2009 petition regarding the men's shelter, as explained in detail in a memo from Gene Poveromo and Phil Mason dated 16 November. To suggest otherwise would be both misleading and inaccurate.

There is no urgency about bringing the other two shelters to compliance NOW (they've been out of compliance for over a decade). As Planning Board member Del Snow argued at the 20 October 1009 planning board meeting, it makes great sense to postpone the text change until further conversation happens between the IFC and the neighborhood representatives (plans for conversation using the dispute settlement center are underway).

2) The text change completely removes the upper limit for size of a shelter in Chapel Hill, which seems enormously problematic. An applicant can submit a Special Use Permit (SUP) for any size shelter.

Furthermore, the text change removes a barrier/step when a shelter wants to expand.

3. According to article 4.4 of the Land Use Management Ordinance which established the intent of zoning amendments, "this chapter shall not be amended except:

- a) to correct a manifest error in the chapter; or
- b) because of changed or changing conditions in a particular area or in the jurisdiction generally; or
- c) to achieve the purposes of the comprehensive plan.

The 16 November memo to Roger Stancil states that there is no cause for the text change under points a or b.

It states that the cause for the text change is point c: to achieve the purposes of the comprehensive plan, specifically to create and preserve affordable housing opportunities.

THIS IS INCORRECT REASONING. Making a larger shelter does not create or preserve affordable housing in Chapel Hill. A shelter is a very different thing from affordable housing. Thus, based on the very definition and three criteria in article 4.4 under which the LUMO text can be changed THERE IS NO CAUSE FOR THE PROPOSED TEXT CHANGE. I encourage you to vote against this text change, whose lack of limits and discordance with the comprehensive plan make it bad for Chapel Hill.

Respectfully,

Tina CoyneSmith

Subject: Expansion of shelter capacity

Dear Council Members;

I want to endorse the comment by Qingqi Chen quoted in today's (11.15.09) Chapel Hill News: "A greater number of gathered homeless human beings equals more crime, substance abuse, and mental illness." These are my sentiments too, and Chen says it very well.

My wife and I are elderly and live nearby, in Glenn Heights. I think this change will increase our vulnerability to crime in the neighborhood, as well as at the bus stop and in local shopping and recreation.

I am also extremely concerned about the effects of supporting more homeless in the area since I think this expansion will encourage more homeless to come here to take advantage of the resources we offer. An then, when more come the "need" for more resources will be documented, and another expansion of resources will be demanded.

Public safety should be of greater concern to the Council than hosting the homeless!

Please heed residents concerns in this matter.

Robert David Ekstrom,
147 Windsor Circle.

Subject: Comment for public hearing November 16 2009

Dear members of the Chapel Hill Town Council,

I am writing in advance of tomorrow's public hearing, which I unfortunately will not be able to attend due to a scheduling conflict. I was dismayed to read the article this morning in the Chapel Hill News regarding community opposition to allowing an enlarged Men's Shelter at the new site off of Homestead Road. I was particularly shocked by the two aspects of the article: first, the intolerant stereotyping of the town's homeless population by people who have probably had little to no contact with this population; second, the impression the article gave that there was little to no community support for the shelter solution that has been proposed, as made apparent by the dozens of letters opposed versus the single letter in support of the change allowing expansion beyond 25 beds.

I have been a member of the United Church of Chapel Hill (we will be neighbors to the new shelter) since early in 2005, and fully support the relocation. In addition to this, I feel I can safely say that all regular members of the church are well aware of the plans, and that I have not heard any objections from the hundreds of church members who would be so near to supposedly "undesirable" homeless people from our community. Further, my wife (copied to this email) and I have volunteered at the Community Kitchen on numerous occasions and have never felt threatened by its residents. We believe that the IFC does a terrific job supporting the shelter, and expect to continue to contribute in various ways in the future.

I would like the council to keep in mind that voices of opposition to change will always turn out in force, no matter how much of a minority opinion they may represent. I know the council understands this, as it is a reality of our political process. If you have not received hundreds of letters from members of the United Church of Chapel Hill expressing opposition to the shelter, you should know that this is because there is no such opposition to speak of. Please keep this in mind and do not hesitate to contact me about this matter.

Sincerely,
 Marc Jeuland

 Subject: Nov 16th Town Meeting - homeless shelter facts

To Town of Chapel Hill Comissioners:

I have followed with great interest the negative stance of many in Chapel Hill who are against the building of a men's shelter on the Homestead Road and Martin Luther King Street site. At the last meeting I heard the fear in the voices of those who do not want the shelter at the proposed site. I am a member of the United Church of Chapel Hill and on the Liaison Board of the IFC representing my church. I have volunteered at the Women's Shelter when it was at the combined men's and women's shelter on Rosemary Street, and presently volunteer with a group of women from my church at the present Homestead Road Shelter for women. In addition, for several years I managed a clinic within a shelter for refugees passing through Buffalo, New York on their way to seek asylum in Canada. These men, women and children, young and old, were not only in the US illegally, but were from over 20 different countries on any given day. The shelter was located in a neighborhood of houses, not unlike Carrboro. Therefore I believe that I have a very good grasp of the realities of being homeless.

In a recent (November 7, 2009) New York Times Op-Ed article entitled "The Forever War of the Mind", statistics told of veterans as representing a substantial proportion of those in homeless shelters. With Veterans Day having been celebrated this week, the article was very timely. To quote part of this well written article by Max Cleland, a Vietnam veteran: "Veterans returning today represent the first real influx of combat-wounded soldiers in a generation. They are

returning to a nation unprepared for what war does to the soul. Those new veterans will need all of our help. After America's wars, the used-up fighters are too often left to fend for themselves. Many of the hoboes in the Depression were veterans of WWI. When they came home, they were labeled shell-shocked and discharged from the Army too broken to make it during the economic cataclysm."

"So it is again, with too many stories about veterans of Iraq and Afghanistan ending up unemployed and homeless. Figures from the Department of Veterans affairs show that 131,000 of the nation's 24 million veterans are homeless each night, and about twice that many will spend part of this year homeless." Tell me, are we going to repeat the behavior of treating our veterans poorly as we did during the last few years of Vietnam? Have we not learned compassion to all our neighbors. Chapel Hill can do better than this! Let's join hands, and instead of being afraid, lets walk together to make sure the shelter gets built.

Thank you,
 Lucinda Kahler

Homeless Men's Shelter & Occupancy Limit

Nov. 15, 2009

To the Mayor & Town Council, Gene Poveromo, & Phil Mason:

1. It is important to move the Men's Homeless Shelter out of the Chapel Hill Downtown.

For many years it has been common knowledge that people outside of Chapel Hill in highly stressed circumstances would find a way to come to Chapel Hill to use the services of our town shelter because it was believed that comparatively unconstrained resources were available at the Chapel Hill shelter. At a Town Council meeting on or about October 19, 2009, the woman who has been the in-take person for the last 2+ years assured residents that, during her time at the IFC Shelter, program and training obligations have been put in place along with background checks.

2. There is still more need for more plus more integrated services at the IFC shelter along with the overall N.C. need for more and better mental health services.

3. The proposal now being considered by the Mayor and Council to locate the Homeless Men's Shelter at the corner of MLK Blvd. and Homestead Road will require perhaps more supervision than is possible due to the proximity to a heavily used public park. The Healing Place in Raleigh is located far off from residences and is often cited as a preferred way to locate people who need many kinds of public services. Our free bus system, supported by two towns and our university, could develop a run to a similar kind of location.

At that late October Council meeting, Mark Kleinschmidt simply expressed pride in our town for being part of a homeless shelter plan. Matt Czajkowski confirmed his support for a town plan but asked what many residents were asking:

4. What specific programs will the new Men's Shelter offer? How will overflow entrants be handled? These are key concerns that have long troubled the current IFC shelter operations. Chapel Hill needs the answers to these questions.

5. Regarding the 25-person limit, or a higher number to be established by ordinance, it seems that more than 25 people may have occupied the IFC Shelter from time to time anyway. What number of actual Chapel Hill residents might be expected to need the new Men's Shelter?

I usually seek to avoid delays, but the new Men's Shelter will be so different from the existing shelter, it seems most practical and prudent to await knowledge of real programs and projected occupancy before changing our existing ordinance. I hope this will be done.

Sincerely,

Lynne Kane

Subject: Changes to Land Use Management Ordinance - Please Vote No

Dear Honorable Mayor and Council:

First, thank you for your thoughtful consideration of the issue. The main issue is that there is no need to make this change based on any of the reasoning given so far. By voting in favor of this change, you are not changing the fact that the IFC Shelters have been in violation of the law for many years.

Changing the rule now without any real debate or understanding of why it was implemented in the first place is a mistake. The results of this mistake, we will all pay for with higher Police activity in response to the criminal activity that this will bring. This will not solve the issue of Homelessness and the justification of providing housing is contradictory to recent decisions saying that 700 feet is not enough space to be called affordable housing by a developer. A single

bed is certainly less than 700 feet and is also not even permanent.

At the end of the day, this ruling will create a Flop House - the very thing everyone opposes from the IFC to the general community. At some point, one of the Hotels, like the Red Roof Inn will go under and the fact that it has been approved for 150 residents will create the very thing that everyone does not want. I am less concerned with plans on the table than the one that may occur when an unprofitable hotel reforms as a 501(c)3 and uses this provision. Because of the sloppy wording this is a real possibility.

The change I would suggest that is both Humanitarian and Reasonable is to keep the minimum standard at 25 and allow Emergency Housing to 50. It will prevent the Flop-House that we can expect to be built in the future.

Since the requester of this change has a vested interest in a new shelter being built, it might make sense to review this request with an outside body and involve people in the Homeless and Public Policy communities who do not have a vested interest in getting new offices or making a profit. The appearance of impropriety - while I am not sure there was any intent of this - calls for prudence on this issue.

Please consider further study, because I realize the good intentions here. It's just that I have seen too many times in other places I have lived where good intentions created massive problems. This could be one of them without tightening the language and studying this with some of the elite Public Policy experts at UNC.

Thank You,

Steve Wells
Chapel Hill Resident

MEMORANDUM

To: Phil Mason, Principal Planner
From: Chris Moran, Executive Director
CC: GGA Architects
Program Committee
Date: November 5, 2009
Re: Occupancy Numbers for Community House

Phil,

I have prepared some language and provided you a little history that I think will help you with your memorandum to the Town Council.

Proposed Community House

1. The proposed Community House facility is a long-term transitional facility that will have 52 beds on the upper level.
2. Dormitory beds include two 10-bed (5 bunks in each room) dormitory type rooms for residents initially approved for Community House services.
3. Transitional beds include 5 quad rooms (two bunk beds per room) for 20 persons who are stepping up to another level of services.
4. Transitional beds also include 6 double rooms (two single beds per room) for twelve residents who are transitioning in the program to a final phase that provides more freedom with responsibilities (residents will have their own keys at this level).
5. Since the proposed Community House is defined as a "shelter" in the town ordinance we would naturally make allowances for some floor space on the lower level in case of a community wide disaster, medical emergency, storm, white flag nights (when weather makes it dangerous for people to be on the streets*), power outage or referral by police/fire agents, local emergency response team, hospital or emergency management officials.

* Temperatures drop below 40 degrees, heavy rains, snow and hail etc.

Current Men's Residential Shelter at the Old Municipal Building (OMB)

1. The IFC currently has 54 spaces that are occupied by male residents every night.
2. 54 spaces include 30 beds and 24 floor spaces.
3. Before the creation of HomeStart the IFC served men, women and children residents at the OMB.
4. After the IFC renovated the OMB in 1989, homeless women and children occupied 18 beds on the basement floor.
5. The Community Kitchen moved from Merritt Mill Rd to the main floor at the OMB in 1990.
6. Homeless men occupied 34 beds on the second floor.
7. The total number of beds did not include floor space which has become a more frequent need in recent years.
8. The IFC stopped serving single women and women with children at the OMB in 2003.
9. The OMB basement floor is now used for storage only.

HomeStart Campus for Homeless Women and Children

1. Project HomeStart opened in 1998 as a transition housing facility for homeless families.
2. The IFC renamed (HomeStart) and redefined HomeStart's mission and resident population in 2003 to include "homeless women and children".
3. There are three cottages on a 3 acre parcel at the Southern Human Services Center.
4. A total of 56 beds/cots are available in the HomeStart program.
5. The Emergency Shelter program in one cottage has a 16-bed capacity.
6. Two Transitional Housing cottages have a 20-bed capacity or 40 total beds.
7. General floor space for emergency situations is not available.

SAMPLE ZONING ORDINANCES AND LAWS

Winston Salem, NC

<http://library1.municode.com/default-test/DocView/14363/1/10/11#TOC.5.77>

2-5.70.1 SHELTER FOR THE HOMELESS

(A) HEATED BUILDING SQUARE FOOTAGE A minimum of fifty (50) square feet of heated building space shall be provided per resident.

(B) SPACING REQUIREMENT A new Shelter for the Homeless may not be located within a distance of two thousand five hundred (2,500) feet from any other Shelter for the Homeless use, or from any use which, though not classified as a Shelter for the Homeless under this Ordinance, would, if it were reclassified, be classified as a Shelter for the Homeless. All measurements shall be made by drawing straight lines from the nearest point of the lot line where the proposed Shelter for the Homeless is to be located to the nearest point of the lot line of another Shelter for the Homeless. All Shelters for the Homeless, or facilities that would be classified as a Shelter for the Homeless if it were reclassified today, existing as of the effective date of this Ordinance shall be exempt from this two thousand five hundred (2,500) foot spacing requirement for the purposes of expansion or intensification of the use. These existing Shelters for the Homeless must comply with all of the provisions of Section B.2-5.70.1 and obtain a Special Use Permit from the Elected Body for such expansion or intensification of the use.

(C) OPERATION

(1) The Shelter for the Homeless facility shall be contained within a building owned and/or operated by a government agency or nonprofit organization.

(2) The Shelter for the Homeless facility operator(s) shall provide continuous, on-site supervision by an employee and/or volunteer during all hours of operation.

(D) PROHIBITION ON RETAIL SALES No retail sales shall take place in the facility.

(E) MAXIMUM OCCUPANCY A Shelter for the Homeless may house no more than one hundred (100) residents. In the event that housing is provided for more than fifty (50) residents, additional conditions may be imposed to prevent adverse impacts on nearby properties and uses.

(UDO-163(W), § 3, 2-19-07; UDO-163(F), § 3, 4-10-07)

Iredell County, NC

<http://www.co.iredell.nc.us/Departments/Planning/minutes/April2006pbminutes.pdf>

SR 57. Homeless Shelter.

(D) No such facility shall be located within one-half (1/2) mile of an existing shelter for the homeless or any other group care facility.

Fairfield, CA

<http://www.codepublishing.com/ca/fairfield/html/Fairfield25/fairfield2524.html>

25.24.4.3 Homeless Shelters in the IL Zoning District

The purpose of this section is to establish regulations for the location of homeless shelters in the IL Zoning District. Objectives include minimizing land use conflicts and ensuring that there are adequate services for homeless individuals within the vicinity of the shelter.

- c. The parcel on which the facility is located may not be adjacent to a residential zone, school, or park.

Sioux Falls, SD

[http://www.amlegal.com/nxt/gateway.dll/South%20Dakota/siouxfalls_sd/partiirevisedordinances/appendixbzoningordinance*?f=templates\\$fn=document-frame.htm\\$3.0\\$%5Brank%3A%5Bsum%3A%5Bstem%3A%5Bshelter%5D%5D%5D\\$x=server#LPHit14](http://www.amlegal.com/nxt/gateway.dll/South%20Dakota/siouxfalls_sd/partiirevisedordinances/appendixbzoningordinance*?f=templates$fn=document-frame.htm$3.0$%5Brank%3A%5Bsum%3A%5Bstem%3A%5Bshelter%5D%5D%5D$x=server#LPHit14)

15.59.384. Temporary or emergency shelter:

Temporary or emergency shelter may be permitted provided it is found that:

- (1) The location is compatible with characteristics of surrounding uses, and not injurious to surrounding properties, including residential neighborhoods.
- (2) The facility is being fully enclosed within a building, except for a designated outdoor enclosed area.
- (3) The distance between the proposed use and any elementary or secondary school measured from lot line to lot line is not less than 1,000 feet.
- (4) Submittal of a site plan in accordance with 15.59.040.
- (5) Submittal of a written management and security plan which outlines management and security provisions, and includes a neighborhood issues management strategy.
- (6) A neighborhood meeting, which shall include, but is not limited to, a city staff representative and a city council representative, shall be conducted prior to a city public hearing which addresses site improvements, building design, and "good neighbor" components, and addresses the means for dealing with any future problems as may arise, including crime prevention, alcohol, and drug use policies, etc.
- (7) Additional neighborhood meetings shall be organized and held by the applicant to ensure conditional use permit compliance. One neighborhood meeting shall be held

within 90 days after business operations begin, and another neighborhood meeting shall be held prior to the one-year anniversary date of business operation.

Gilroy, CA (has an entire document outlining requirements for a shelter CUP which Chapel Hill should consider)

http://www.ci.gilroy.ca.us/cityofgilroy_files/city_hall/community_development/planning/policy_handouts/homeless_shelter_guidelines.pdf

CUP Guidelines

2. Homeless shelters serving Singles should be located a minimum of 1,000 feet from schools, parks, day care centers, and adult businesses.
3. Homeless shelters should be located a minimum of 600 feet from other homeless shelters. It is preferable that homeless shelters are located a minimum of 2 miles from other homeless shelters.

Homeless Georgia Sex Offenders Directed to Woods

The muddy camp on the outskirts of prosperous Cobb County is an unintended consequence of Georgia law, which bans the state's 16,000 sex offenders from living, working or loitering within 1,000 feet of schools, churches, parks and other spots where children gather.

Thursday, December 17, 2009

Chapel Hill Town Hall
405 Martin Luther King, Jr. Blvd.
Chapel Hill, NC 27514

I would like to follow up, on the record, on item 1b from November 16, 2009 which is tentatively scheduled for continuation on January 11, 2010. This proposal would remove the 25 bed limit and allow a shelter of any size. The proposal also updates the zoning matrix to require the Special Use Permit "SUP" process for shelters. I request that the Town Council **not** approve the removal of the limit and instead consider new ordinance text which is outlined in these comments.

As Chapel Hill grows from a small town into a larger community it should establish regulations for the location of homeless shelters and other at-risk facilities to minimize land use conflicts. Planning Commissions in hundreds of jurisdictions throughout the US such as Winston Salem NC, Sioux Falls SD and Fairfield CA have crafted thoughtful and deliberate guidelines that document all facets of shelter siting, shelter approval, and operating limitations as part of responsible growth. Well defined ordinances provide equal knowledge for all members in a community and serve to reduce future conflict. Today, Chapel Hill's shelter ordinance consists of **one sentence**. This lack of definition has created the current conflict surrounding the proposed LUMO text change for homeless shelters.

[Appendix A](#) provides samples of shelter ordinances. Here is list of considerations other communities have found important to define and regulate:

- ✓ How close shelters can be sited to other shelters and to drug / alcohol rehabilitation facilities and group homes
- ✓ How close shelters can be sited to schools and daycare
- ✓ How close shelters can be placed to parks and other public facilities
- ✓ How large shelters can be. Shelters with 100, 200, and 400 beds exist throughout the country. This should be considered before removing the limit completely.
- ✓ What square footage is required for a facility and for each resident
- ✓ When residents can access the facility. Many ordinances require that residents be allowed 24/7 hour access to the facility so that they are not out on the street.
- ✓ Whether facilities can be expanded in the future. Many document limits to and an approval process required for expansions of facilities and functions
- ✓ How shelter requirements for families may vary from shelter requirements for singles
- ✓ How shelters are reviewed annually to proactively insure compliance. Many require an annual permit review process like there are with nightclubs so that the shelter can be reduced in operating size or moved to another location

when crime becomes too much for a particular site. Having this review as an item on the council agenda would allow the town to receive materials to proactively see what crime and other problems are occurring around shelters while also giving residents a formal opportunity to bring matters regarding operational difficulties or crime to the Town Council.

In considering the LUMO change, the Planning Board has not taken into consideration facts that effect existing neighborhoods and public spaces.

1. The proposed ordinance change does nothing to assure shelters will be built with appropriate buffers and limitations. There are no protections preventing all at-risk facilities from being dumped in one tiny area in the town and county. The black triangle shown in [Appendix B](#) connects the two existing overnight at-risk social service facilities with the proposed men's shelter, the only facilities of their type in the county under the propose relocation. The town council owes it to all the residents of our town to equally distribute such social services, to be up front with intent and to create zoning rules that provide assurances that citizens and property owners will be protected from the whims of a future council.
2. The Planning Board did not consider the magnetic effect that existing facilities provide for half way or residential recovery homes. It is convenient for organizations to locate residential recovery homes near facilities like Freedom House who provide programs. This further concentrates at-risk individuals in one small area. Oxford House residential halfway houses have been opening up in North Forest Hills across from Freedom House (see [Appendix C](#)). According to Phil Mason, registration is not required for these facilities; the Town Planning Board has no knowledge of where they are and no ordinances to limit them.
3. The Planning Board did not consider normal capacity vs. white flag capacity. The current men's shelter is a white flag site; it provides shelter beyond regular capacity on inclement weather nights. There are over 200 white flag nights per year based on the IFC's current weather criteria (see [Appendix C](#)). On these nights, the shelter will allow as many people in as fits on the floor. These men will have to leave the shelter first thing in the morning as is currently done in the existing men's shelter. The ordinance does not distinguish between shelters and residential programs, so a facility approved as a shelter can operate with an emergency shelter model if not otherwise restricted in the SUP. Special Use Permits are no substitute for writing the rules down when it comes to regular shelter occupancy capacity as well as a defined capacity during the 200+ white flag nights.
4. The Planning Board did not study crime statistics around shelters and does not look at crime maps in their planning efforts. The town does

not publish any "heat-map" or aggregated crime information beyond an annual town-wide count of personal versus property crimes. Crime is already significantly higher in the square mile centered in Parkside and North Forest Hills than in other similar suburban neighborhoods. [Appendix D](#) details incidents/ calls tracked by police at the addresses for Freedom House Recovery Center, Rainbow Court public housing and the HomeStart women's shelter. [Appendix E](#) details incidents for the current men's shelter.

Changing the shelter size is not justifiable according to current zoning regulation. Article 4.4 of the Land Use Management Ordinance which establishes the intent of zoning states; "In order to establish and maintain sound stable and desirable development within the planning jurisdiction of the Town it is intended that this chapter shall not be amended except:"

- a) to correct a manifest error in the chapter
- b) because of changed or changing conditions in a particular area or in the jurisdiction generally
- c) to achieve the purposes of the Comprehensive Plan

Item a): to correct a manifest error in the chapter - A manifest error is an indisputable error of judgment in complete disregard of the facts of the case and the applicable rule or law. An example of a manifest error would be if you had records of a passed motion in support of a 25 bed limit and then someone typo'ed the actual ordinance and put 15 in it. Unless that you can show that some other figure was actually decided in the meetings leading up to the LUMO change other than 25, then you have no grounds for a manifest error. In fact, the town materials fail to show that a different value was even contemplated. The revised version for reason "A" internally contradicts itself in that the old shelter limit was intentional in 1985 and is somehow now considered an error. Just because the text is old does not make it a manifest error.

Additionally, the October 20th memorandum from Gene Poveromo and Phil Mason stated for *Item a)*: "Argument in Support: We are unable to identify any arguments in support of the necessity of correcting a manifest error in the Ordinance." This calls into question the wording in the later November 16th memorandum.

Item b): because of changed or changing conditions in a particular area or in the jurisdiction generally - The revised reason for *Item b)* is not defensible. There are no "changed conditions" that support the proposed change. In fact, the change of conditions in the Homestead area **contradicts** the proposed LUMO change. These changes are the addition and expansion of two large at-risk overnight facilities as well as significantly higher crime totals than other similar suburban residential neighborhoods in Chapel Hill. Given these changed conditions, it is clear

that additional risk factors are not appropriate for the neighborhoods around Homestead and MLK and mitigation or prevention of these risk factors should be a part of the LUMO text change.

Second, regarding the jurisdiction generally, the IFC can still serve 50 men under the current shelter LUMO definition, they would just need to do it in two 25 bed shelters. The efficiency argument is specious in light of the increased public safety risk of men who are removed from the shelter for disciplinary reasons (See [Appendix F](#)), men who are turned away if the 20 emergency bed allocation is full, and the unlimited number of men who are discharged after being allowed to stay during a white flag night. These public safety issues occur outside of the shelter premises but occur due to the presence of the shelter. If shelters were smaller and geographically distributed, then the public safety issues would also be distributed, a single neighborhood area would not have to bear all of these issues, particularly if the neighborhood already had at-risk overnight social services.

Additionally, similar to *Item a)*, the October 20th memorandum from Gene Poveromo and Phil Mason states for *Item b)*: "Argument in Support: We are unable to identify any arguments in support of the necessity of correcting a manifest error in the Ordinance." This again calls into question the wording in the later November 16th memorandum.

Item c): to achieve the purposes of the Comprehensive Plan - The plan talks about improving the quality of life of residents within the town, such as:

- "Neighborhoods: Protect the physical and social fabric of Chapel Hill's neighborhoods."
- "A fundamental challenge for the future is: how do we manage change in a manner that best promotes the overall well-being of the community. "

The proposed ordinance change does not promote the well being of the community because it unfairly concentrates at-risk overnight social services in one area of the town. In the future, the comprehensive plan should set more explicit goals to reduce crime and to use crime data in planning decisions.

In the town's attempt to justify *Item c)*, it asserts that the change will "*create and preserve affordable housing opportunities*". Without making the proposed change the IFC can still "*create and preserve affordable housing opportunities*" under the existing ordinance for as many people as they desire by providing facilities for people in groups of 25 or less.

The town asserts that the change will "*provide quality community facilities and services*". There is no evidence that large shelters will provide better community facilities and services, in fact smaller twenty five bed shelters could do more to promote safety and well-being within Chapel Hill than uncapped, unlimited sized shelters. Smaller facilities could provide a higher quality of life, residents can live in a smaller, more personal setting, and the public safety issues are reduced for the neighbors and their quality of life is also higher.

I have requested more information regarding existing SUPS, SUP enforcement, and other items but have not yet received responses. It is impossible to fully comment without this information. Here are some items that have not been considered:

- ✓ What process does a soup kitchen fall under if it was to be added now or at a later time to the proposed shelter since this use is not identified under ordinance?
- ✓ What standards will be used to determine normal occupancy? What are the standards to determine maximum occupancy for white flag nights?
- ✓ What were the resident addresses of people who were arrested by CHPD? The records I have to date indicate where the arrest occurred, but not where the arrestee resided at the time. Kevin Gunter is trying to get this information for me.

In Summary, I recommend Chapel Hill's Town Council not approve the proposed LUMO text changes but rather task the Planning Board with creating new zoning ordinance text that documents reasonable parameters for shelter locations and develops measurable guidelines for use. The Planning Board should study similar zoning from other localities, talk with the community, and review incident and crime data for existing facilities. **One sentence** within an ordinance cannot serve to manage land use for shelters in Chapel Hill and lack of public guidelines for shelter use will continue to create conflict between so many well intended members within our community and ultimately hurt those members of our community who need help, the residents of our shelters.

Regards,

Mark Peters

APPENDIX A – SAMPLE SHELTER ZONING ORDINANCES AND LAWS

Winston Salem, NC

<http://library1.municode.com/default-test/DocView/14363/1/10/11#TOC.5.77>

2-5.70.1 SHELTER FOR THE HOMELESS

(A) HEATED BUILDING SQUARE FOOTAGE A minimum of fifty (50) square feet of heated building space shall be provided per resident.

(B) SPACING REQUIREMENT A new Shelter for the Homeless may not be located within a distance of two thousand five hundred (2,500) feet from any other Shelter for the Homeless use, or from any use which, though not classified as a Shelter for the Homeless under this Ordinance, would, if it were reclassified, be classified as a Shelter for the Homeless. All measurements shall be made by drawing straight lines from the nearest point of the lot line where the proposed Shelter for the Homeless is to be located to the nearest point of the lot line of another Shelter for the Homeless. All Shelters for the Homeless, or facilities that would be classified as a Shelter for the Homeless if it were reclassified today, existing as of the effective date of this Ordinance shall be exempt from this two thousand five hundred (2,500) foot spacing requirement for the purposes of expansion or intensification of the use. These existing Shelters for the Homeless must comply with all of the provisions of Section B.2-5.70.1 and obtain a Special Use Permit from the Elected Body for such expansion or intensification of the use.

(C) OPERATION

(1) The Shelter for the Homeless facility shall be contained within a building owned and/or operated by a government agency or nonprofit organization.

(2) The Shelter for the Homeless facility operator(s) shall provide continuous, on-site supervision by an employee and/or volunteer during all hours of operation.

(D) PROHIBITION ON RETAIL SALES No retail sales shall take place in the facility.

(E) MAXIMUM OCCUPANCY A Shelter for the Homeless may house no more than one hundred (100) residents. In the event that housing is provided for more than fifty (50) residents, additional conditions may be imposed to prevent adverse impacts on nearby properties and uses.
(UDO-163(W), § 3, 2-19-07; UDO-163(F), § 3, 4-10-07)

Iredell County, NC

<http://www.co.iredell.nc.us/Departments/Planning/minutes/April2006pbminutes.pdf>

SR 57. Homeless Shelter.

(D) No such facility shall be located within one-half (1/2) mile of an existing shelter for the homeless or any other group care facility.

Fairfield, CA

<http://www.codepublishing.com/ca/fairfield/html/Fairfield25/fairfield2524.html>

25.24.4.3 Homeless Shelters in the IL Zoning District

The purpose of this section is to establish regulations for the location of homeless shelters in the IL Zoning District. Objectives include minimizing land use conflicts and ensuring that there are adequate services for homeless individuals within the vicinity of the shelter.

c. The parcel on which the facility is located may not be adjacent to a residential zone, school, or park.

Sioux Falls, SD

[http://www.amlegal.com/nxt/gateway.dll/South%20Dakota/siouxfalls_sd/partiirevisedordinances/appendixbzoningordinance*?f=templates\\$fn=document-frame.htm\\$3.0\\$q=%5Brank%3A%5Bsum%3A%5Bstem%3A%5Bshelter%5D%5D%5D\\$x=server#LPHit14](http://www.amlegal.com/nxt/gateway.dll/South%20Dakota/siouxfalls_sd/partiirevisedordinances/appendixbzoningordinance*?f=templates$fn=document-frame.htm$3.0$q=%5Brank%3A%5Bsum%3A%5Bstem%3A%5Bshelter%5D%5D%5D$x=server#LPHit14)

15.59.384. Temporary or emergency shelter:

Temporary or emergency shelter may be permitted provided it is found that:

- (1) The location is compatible with characteristics of surrounding uses, and not injurious to surrounding properties, including residential neighborhoods.
- (2) The facility is being fully enclosed within a building, except for a designated outdoor enclosed area.
- (3) The distance between the proposed use and any elementary or secondary school measured from lot line to lot line is not less than 1,000 feet.
- (4) Submittal of a site plan in accordance with 15.59.040.
- (5) Submittal of a written management and security plan which outlines management and security provisions, and includes a neighborhood issues management strategy.
- (6) A neighborhood meeting, which shall include, but is not limited to, a city staff representative and a city council representative, shall be conducted prior to a city public hearing which addresses site improvements, building design, and "good neighbor" components, and addresses the means for dealing with any future problems as may arise, including crime prevention, alcohol, and drug use policies, etc.
- (7) Additional neighborhood meetings shall be organized and held by the applicant to ensure conditional use permit compliance. One neighborhood meeting shall be held within 90 days after business operations begin, and another neighborhood meeting shall be held prior to the one-year anniversary date of business operation.

Gilroy, CA has an entire document outlining requirements for a shelter CUP which Chapel Hill should consider

http://www.ci.gilroy.ca.us/cityofgilroy_files/city_hall/community_development/planning/policy_h andouts/homeless_shelter_guidelines.pdf

CUP Guidelines Relevant excerpts:

- 2. Homeless shelters serving Singles should be located a minimum of 1,000 feet from schools, parks, day care centers, and adult businesses.**
- 3. ... It is preferable that homeless shelters are located a minimum of 2 miles from other homeless shelters.**

PURPOSE

The City of Gilroy, through its General Plan Housing Element and Community Development Block Grant Action Plan, recognizes that there is a homeless population within Gilroy that requires assistance through the provision of emergency food, job training, and emergency shelter. A variety of agencies within Gilroy assist in the provision of food and job training to the homeless. However, few agencies provide shelter to homeless individuals and families. These Homeless Shelter Guidelines set forth criteria to allow homeless shelters to locate and operate in Gilroy, so that the needs of Gilroy's homeless citizens can be addressed. These guidelines shall apply only to homeless shelter facilities serving more than six clients, since facilities serving six or fewer clients are considered residential uses. These guidelines shall not be applied in such a way that they prohibit or discourage homeless shelters from being located in the City of Gilroy.

CONDITIONAL USE PERMIT REQUIRED

The operation of all homeless shelters within the City of Gilroy shall be contingent upon receiving Planning Commission approval of a Conditional Use Permit (CUP). Each CUP shall be valid for a determinate length of time, as specified in the CUP approval. Approval of the CUP shall be based upon the shelter's compliance with the following guidelines:

Location Considerations

One of the most critical factors involved in developing a homeless shelter is ensuring that it is properly located. It is therefore necessary to identify both desirable and undesirable locations for homeless facilities. Qualities of desirable locations include:

- Closeness to public transportation
- Closeness to professional services, such as doctor's offices, barber shops, and legal offices
- Closeness to grocery stores
- Closeness to job development centers
- Closeness to providers of services often utilized by the homeless (i.e. medical clinics, food banks)

Qualities of undesirable locations include:

- Nearness to residential areas

- In industrial areas
- Nearness to adult entertainment facilities
- Near areas with a high concentration of bars and/or liquor stores

Therefore, the following criteria shall be used to locate a homeless shelter:

1. Homeless shelters may be located in any zoning district.
2. Homeless shelters serving Singles should be located a minimum of 1,000 feet from schools, parks, day care centers, and adult businesses.
3. Homeless shelters should be located a minimum of 600 feet from other homeless shelters. It is preferable that homeless shelters are located a minimum of 2 miles from other homeless shelters.
4. Homeless shelters should be located within 0.25 miles of a public transportation system.
5. Homeless shelters should be located near job development centers, medical clinics, and food banks. Homeless Shelter Guidelines 2 Adopted March 6, 2000

Management of Shelters

All proposed homeless shelters shall be required to submit a management plan, which will be reviewed through the Conditional Use Permit process. Shelter management plans shall address, but not be limited to addressing, the following issues:

- Clearly defined forms of transportation to and from the shelter, including bus and pedestrian routes
- Client supervision
- Food Service
- Client services
- Program for ensuring good relationships with properties surrounding the shelter
- Conflict resolution
- Crime prevention
- Control of loitering
- Control of littering
- Length of client stay
- Number of staff, and duties to be performed by staff

Number of Clients Served

Shelters shall be limited to a maximum of 140 beds.

Recreational Areas

Homeless shelters should provide for recreational areas outside of the shelter. If families are housed in the shelter, a play area for children should be provided.

Required Parking

Required parking for shelters will be established based on the individual needs of each facility. As a rule, shelters that include services for families will be required to provide more parking than shelters that provide services exclusively to homeless individuals.

Exterior Lighting

Lighting of the property on which the homeless shelter is located should be designed to provide a minimum maintained horizontal illumination of at least one foot candle of light on the parking surfaces and walkways.

Hours of Operation

Homeless shelters shall remain open 24 hours a day. Homeless Shelter Guidelines 3 Adopted March 6, 2000

Separation of Clients

Homeless shelters shall provide for separation of families from individuals and special needs clients.

Provision of Services

Each homeless shelter shall provide the following services:

- Food service
- Job counseling
- Alcohol and drug addiction screening and counseling
- Domestic abuse counseling
- Health Care
- Mental Health Care
- Case Management

Alcohol and Drug Use Prohibited

All homeless shelters shall create a zero tolerance policy for alcohol and illicit drug use among its clients and staff. The policy shall include a provision that shelter clients who are suspected to be under the influence of illicit drugs and/or alcohol shall be subject to drug testing, as allowed by State and Federal law. A copy of this policy shall be provided to the Planning Division for review and approval.

[Homeless Georgia Sex Offenders Directed to Woods](#)

The muddy camp on the outskirts of prosperous Cobb County is an unintended consequence of Georgia law, which bans the state's 16,000 sex offenders from living, working or loitering within 1,000 feet of schools, churches, parks and other spots where children gather.

APPENDIX B – Concentration of At-Risk Social Services

The black triangle below connects the two existing overnight at-risk social service facilities with the proposed men's shelter, the only facilities of their type in the county in the future. The larger area is Orange County and the medium sized area is Chapel Hill and Carrboro.

Corners of triangle:

- Freedom House Drug Detoxification and Rehabilitation Center
- Homestart Women's and Children's Shelter
- Proposed Men's Shelter

APPENDIX C – Oxford Houses

Freedom House is already drawing **Oxford Houses** and likely other drug halfway houses in the area for the proposed Men's shelter. No one knows how many because the Town of Chapel Hill does not track them.
