

Marie D. Eldridge
439 Cedar Club Circle
Chapel Hill, NC 27517

January 4, 2005

Mayor Kevin Foy and Members of the Town Council
Chapel Hill, NC 27514

Dear Sirs:

I respectfully submit the enclosed petition for a signal light that can be tripped by traffic on Cedar Club Circle and/or Sprunt Street be installed at the intersection with Meadowmont Lane. This petition has been signed by 234 citizens who are acutely aware of the perilous traffic situation at this intersection. They are associated with the Cedar Retirement Community, the Rashkis Elementary School or the business community at Meadowmont Village.

The petition stems from the fact that the intersection has proven to be very difficult for the residents of the Cedars and that, in turn, presents a problem for all traffic on Meadowmont Lane. Staff, parents and children at the Rashkis School are at risk when they drive through this intersection on the way to or from the school. Clients at the UNC Health Center are required to make a difficult left turn from Meadowmont Lane to Sprunt Street. I personally have experienced a "near miss" as have others who I believe would like to reinforce this petition on January 10th.

We recognize that the local traffic engineers consider the visibility adequate at the intersection. However, the number of "near misses" that have already occurred there brings this judgment into serious question. We believe that it is imperative that consideration be given to the fact that many elderly motorists (and pedestrians) use this intersection and they find it hazardous.

Thank you for your consideration. I plan to attend the January 10 Town Council Meeting in order to answer any questions you might have regarding this issue.

Sincerely yours,

Marie D. Eldridge

A PETITION TO THE CHAPEL HILL TOWN COUNCIL

6

We, the undersigned, are very much concerned about the difficulty associated with making a left turn from Cedar Club Circle to Meadowmont Lane. The situation is aggravated by the relatively heavy traffic on Meadowmont Lane and the curvature of the road between Cedar Club and the Rashkis School. We therefore petition that a signal light that can be tripped by traffic on Cedar Club Circle and Sprunt Street be installed to alleviate this unsafe condition.
