

Dear Mayor Foy and Town Council Members:

My name is Michelle Arlotto and this is Julie Randolph. We live in the Springcrest neighborhood. Last March residents who live on Chipcoaks and Perry Creek Drives of Springcrest signed a petition requesting stop signs and speed humps to alleviate the speeding problem in our neighborhood. With the joining of our neighborhood to Silver Creek and Chandler Green neighborhoods and the shortcuts that this joining has created, we have noticed an increase of cars traveling at high speed through our neighborhood. We are not opposed to the increase of traffic through our neighborhood as we were aware that these "cut throughs" would be created when we bought our homes, but we are opposed to the high speeds that some drivers are using as they come through our neighborhood. In particular, we have noticed high speeding cars around the time that school lets out at East Chapel Hill High and at the 5:00 pm rush hour.

Kumar Neppalli, the traffic engineer, responded to our petition and set up a traffic study, which confirmed that speeding is a problem on Perry Creek Drive. Kumar has made a recommendation for stop signs and speed humps, and we come here tonight to ask you for funding for this project. From Kumar's recommendation and what we have seen on our streets, we think that three speed humps and 4 multi-way stop signs are needed at designated areas on Perry Creek Drive, which we have highlighted on the enclosed map.

We understand that there is a current budget crisis, and we know that you have difficult decisions ahead of you as you decide what projects to fund in your upcoming budget sessions. We think that safety is an important issue, and we hope that you can find a place in next years budget for our request.

We thank you for your attention to this matter.

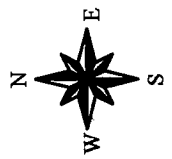

Sincerely,

Michelle Arlotto
Julie Randolph

Kumar Neppalli, EIT
Town of Chapel Hill
306 N. Columbia St.
Chapel Hill, NC 27516

Dear Mr. Neppalli:

Enclosed please find a petition for speed bumps and stop signs from the residents of the Springcrest subdivision in Chapel Hill. I would like to point out that every homeowner on Perry Creek Drive and Chipcoaks Drive that I was able to contact (I was able to contact 92% of the homeowners and get 76 signatures) was enthusiastic about decreasing the speed of traffic through our neighborhood with speed bumps and stop signs. Some homeowners even have suggestions on where they are needed. Please contact me at the above phone number or fax number if I or any of my neighbors who signed the petition can be of help.

Thank you for your consideration of our request.

Sincerely,

Michelle Arlotto

RECEIVED

NAR 23 2001

**CHAPEL HILL
ENGINEERING DEPT.**

We the undersigned residents of Perry Creek Drive and Chippoaks Drive in the Springcrest subdivision request that speed bumps and stop signs be put in at appropriate places on our streets to slow the speed of traffic.*With the recent joining of our neighborhood to the Silver Creek and Chandler Green neighborhoods and the shortcuts that this joining has created, we have noticed an increase in traffic through our neighborhood. Although we were aware that this would happen and are not opposed to the increased traffic, we are opposed to the high speeds in which cars are traveling through our neighborhood. There are many children who live in this neighborhood and play in these streets and as we all know, they do not always remember street safety rules. In addition several neighbors walk through our streets for exercise.

An incident that happened the other night illustrates why we feel we need speed bumps and stop signs. On January 11, 2001 a car came recklessly speeding through our neighborhood on Perry Creek Drive from the direction of Silver Creek at 10:30 pm. Two neighbors witnessed this car dragging a neighbor's trash can (that was put at end of their driveway) from the "500 block" of Perry Creek Drive to the "400 block" of Perry Creek Drive where the trash can broke free of the car and ended up on another neighbor's lawn. The driver did not even stop! The next morning a family further down Perry Creek Drive (the "200 block" of Perry Creek Drive) noticed that their mailbox had been broken off its post. It is fortunate that it was a trash can this time and not a person that was dragged through our streets. We think that speed bumps and stop signs will do a lot to alleviate this problem.

Thank you.
