Subject: Rezoning of Parking

Ms. Oliver

I am a current resident at 101 Roundhill Road in Chapel Hill (near the UNC campus). Recently, we've experienced problems with people parking in front of our home (blocking both mail delivery and trash pick-up). We've asked people on several occasions not to park there and left notes with others. The response that we have gotten has been trash thrown in our yard and remarks to the effect that it is a public street and people will park where they want. At the present time, Roundhill Road is listed as parking by residential permit only between 9 AM and 4 PM. While the "No Parking" sign is posted next to our driveway, people continue to park on the other side of it, blocking both mail and trash pick-up. In addition, the added traffic on the road has resulted in deep wash-outs (it is a dirt and gravel drive). At this time, we have several questions.

1. Who do we need to contact to get permits for our vehicles as residents?
2. How can we request that the "No Parking" area be extended approximately 100 feet to cover in front of our home (we would like to have this done as quickly as possible)?
3. If possible, what is the quickest way that we can have Roundhill Road rezoned from a Sec. 21-27.9 area to a Sec. 21-27.8 area to keep people that are not residents from parking there?

If I have contacted your department in error, would you be kind enough to forward this message to someone within the city council that could help us in this matter? Thank you so much for your help in this matter.

Sincerely,

David Clapsadl
