

SUMMARY OF TRANSPORTATION BOARD ACTION

Subject: Traffic Calming Plan for Dogwood Acres Drive at the Proposed Southern Community Park.

Meeting Date: February 8, 2006

Recommendation: The Transportation Board voted 8-0 to provide the Council with the following recommendation.

- The Board believes the design of the vehicular and pedestrian access and the parking for the Southern Community Park is inadequate and does not address key safety issues. The Board believes the original Southern Community Park design should be reconsidered for implementation.
- If the parking area south of Dogwood Acres Drive were limited to no more than 40 spaces the Board supports the proposed traffic calming measures.
- The Council should request that NCDOT install a traffic signal at Dogwood Acres Drive and US 15-501 South.

Members Present: Howe, Hapgood, Carder, Barnes, Juliano, MacGregor, Eldridge, Paulsen

Vote: 8-0

Aye: Howe, Hapgood, Carder, Barnes, Juliano, MacGregor, Eldridge, Paulsen
