

Petition to Include Winter Subdivision in the Morgan Creek NCD

We the undersigned residents of Meadow Lane declare our support for including the Winter Hill Subdivision in the Kings Mill-Morgan Creek Neighborhood Conservation District. We want to preserve, protect and enhance the value and character of our neighborhood--and we are all part of one neighborhood. Physically, our lots and houses are similar in character to the rest of the neighborhood. Socially, we are a part of the neighborhood (we're on the neighborhood listserv, for example). Further, we believe there is a special reason we should be included: our proximity to the meadow warrants our inclusion because our houses and lots form part of the meadow vista. It is very important to the ecosystem of the meadow that our neighborhood maintain its low-impact orientation. It is important that this set of lots that border the meadow remain visually compatible with the natural environment. We believe the goals of the NCD for the Kings Mill-Morgan Creek neighborhood can only be fully met if the Winter Hill Subdivision is included.
