TOWN OF CHAPEL HILL NEIGHBORHOOD CONSERVATION DISTRICT PROCESS
Phase One Petition Requesting a Neighborhood Conservation District Public Information Meeting

We, the undersigned, hereby request a Neighborhood Conservation District Public Information Meeting that will provide the following information:

- What is a Neighborhood Conservation District?
- How many Neighborhood Conservation Districts exist and what do they consist of?
- What can a Neighborhood Conservation District accomplish? What does a Neighborhood Conservation District *not* address?
- What is the process to create a Neighborhood Conservation District (**Phase Two**)?

We, the undersigned submit the following Statement of Justification (statement that describes the neighborhood and the reason for requesting a Neighborhood Conservation District Public Information Meeting):

Physically the neighborhood is 25 homes and one "community lot" (owned by all) on Highland Wood Rd. - a single loop street with no intersections and only one access. The neighborhood was founded by a group of families and 50 years on still has a strong sense of community. We wish to explore protecting the physical character by looking at possibility of establishing minimum lot sizes, property line set backs, building/house heights, relationship of house size to lot size.

*Co-owners of a property (including husband and wife) must both sign the petition

*Corporations must provide proof of authorization for a signature from the Board of Directors
