

Northside Neighborhood Conservation District

Vision Statement (proposal)

Our charge is to ensure that the Northside neighborhood will continue to be just that a neighborhood.

- We want to preserve the history, charm and composition of a proud and historic community.
- We want to promote and protect the diversity and family character of the neighborhood.
- We want to protect the family atmosphere and ensure that all future development is comparable with the majority of the neighborhood in scale, function, and appearance.
- We want to maintain the current mix of rental housing and owner occupied housing.
- As properties change ownership we want to make certain that families seeking homeownership have opportunities to buy a home and can afford to live in our community.
- Lastly, we want to nurture an environment that promotes community interaction and fosters a safe and proud neighborhood.

These are the goals we endeavor to achieve through the development of the Northside Neighborhood Conservation District.
