

SUMMARY OF BICYCLE AND PEDESTRAIN ADVISORY BOARD ACTION

SUBJECT: 2006-2012 Chapel Hill Transportation Project Priority List

DATE: September 30, 2003

RECOMMENDATION: Bicycle and Pedestrian Board members made the following comments on the priorities for Chapel Hill:

- Request funding for Estes Drive Extension now (existing Priority 2).
- Questioned the reason for Manning Drive project (existing Priority 16).
- Add sidewalks and bicycle facilities on Barbee Chapel Road from Downing Creek Parkway to NC54 and provide a bike and pedestrian crossing at intersection of NC54. (Suggested New Project to add to list. Project jointly with Durham City/County)
- Projects described as providing bicycle lanes should instead state wide outside lanes (or bicycle lanes) to reflect the Town Bicycle Facilities Policy.

VOTE: The Bicycle and Pedestrian Board did not have a quorum and therefore did not hold a vote on these comments.
