

PETITION

We, the undersigned, urgently request the Chapel Hill Town Council to move the projected date of installation of sidewalks on Shady Lawn Road to an earlier date.

We, the residents on Shady Lawn Road desperately need a safe place to walk. Many families with young children and aged people fear for their safety. Traffic on our street is busy and many motorists speed above the posted limit. The proximity to the proposed North Carolina campus might cause more people to look for shortcuts on/through our street.

We urgently support the installation of a sidewalk as soon as possible before someone is injured.
