RE: Petition to Expedite Striping of Weaver Dairy Ext.

Dear Mayor Foy and the Members of the Town Council,

This is a petition/letter of request to expedite the striping of the remaining half of Weaver Dairy Extension. As you know, speeding has been a concern on this road. Thank you for placing the necessary additional speed limit signs. Now, however, only the second half of this road is striped. The first half, which is the widest part of the road, looks like it is a four-lane road, and it has become dangerous. People are passing each other with no idea that this road is not a four lane. People are beeping their horns and making dangerous maneuvers on this neighborhood street. The road is intended for two lanes with a left turn lane, I believe.

We know that the road is to be striped, however we feel it is of utmost importance to do this quickly for safety concerns.

Thank you for your attention to this matter.

Sincerely,

  
Jay Brenman
