**Subject:** RE: Cars parked on streets

Mr Neppalli,

I received your phone message about the petition for the Lonebrook Drive traffic calming devices. Unfortunately, we are not able to obtain enough signatures to have a valid petition. I am very unhappy about this as I live on Lonebrook and I know there is a speeding problem. You have even provided facts to support this; as the two traffic studies already completed on Lonebrook revealed the speeding problem.

I understand the stop signs will come down. But let me be the first to tell you that I will be calling the police to report the speeding cars—I can get license plates numbers! In fact, one of the main offenders is Mr. Eric Plow, who so greatly opposes these traffic calming devices. I see where he attends many Town Council meetings and complains about traffic calming devices through-out town, about the speed limit on Weaver Dairy Ext. being too slow!!!!, etc.... I cannot believe you all even listen to him!

I hope this problem doesn't end with a child being injured, crippled or dead because we could not control the speeding on Lonebrook Drive. If this does happen, the members of the Town Council will not hear the end of this one!!!!!!!!!!!!!!!!!!!!!!

Please feel free to pass this along to the members of the Town Council.
