Next Brownfields Conference - Brownfields 2002

November 13-15, 2002
Charlotte, North Carolina

Announcing Brownfields 2002, a forum on brownfields redevelopment for all stakeholder groups. The Annual Brownfields Conference provides an opportunity to learn about successful brownfields redevelopment and to share your experiences with other stakeholders. Program sessions will be offered for beginning, intermediate, and seasoned stakeholders. Please mark your calendars for November 13-15, 2002.

Brownfields Conferences General Information

The national Brownfields Conferences bring together key experts from all levels of government, business, and finance and from local communities to share ideas and experiences in the field of urban and environmental development. Participants in the conferences focus their efforts on properties known as "brownfields" – abandoned, idle, or underused industrial and commercial properties at which real or perceived contamination interferes with efficient expansion or redevelopment efforts.
