Dear Rodney:

We have a group of people who would like to go before the town Council to ask that additional funds be budgeted for the Chapel Hill Fire Department.

We would like to ask for the following:

1. Increase the number of firefighters from 3 to 5 per truck. 2. Increase the salaries for the firefighters 3. Provide funds for advanced training.

In order to do this effectively we need some background information. Would you please forward this request to Cal Horton and any other town officials or firefighters that can help. Here are the questions:

1. How many firefighters were added to the department in the last 12 years? 2. What new equipment has been purchased in the last 12 years? 3. What is the average salary for a CH firefighter? 4. How many new homes have been built in CH in the last 12 years? 5. What has been the population growth in CH in the last 12 years? 6. How many new business structures have been built in CH the last 12 years?

Please feel free to change these requests to 15 year or 10 years, etc., whatever date makes sense will work.

Thanks,
Ralph
