SUMMARY OF PLANNING BOARD ACTION

Subject: Metropolitan Transportation Improvement Program

Date: January 21, 2003

Recommendation: The Planning Board recommends that the Town Council pursue more funding equity across the counties in Region 7 and continue to place highest priority on public transportation funding for the Town of Chapel Hill.

Vote: 10-0

Discussion: Board members also noted that Weaver Dairy Road is still shown on the list for five lanes, and some felt the Transportation Improvement Program should reflect Council's decision to seek a three lane road.
