Kevin C. Foy, Mayor
Town of Chapel Hill
306 North Columbia Street
Chapel Hill, NC 27516

Dear Kevin:

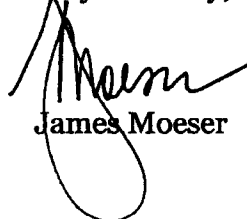

I am writing in response to your request for an update on the University's plans for remediation of the waste sites at Carolina North.

With regard to the chemical site, I am pleased to report that the University's Budget Committee has established a funding plan for the remediation, thus enabling us to begin negotiating a voluntary remediation agreement with the Department of Environment and Natural Resources. In addition, our consultants have completed a biennial round of groundwater sampling, and we expect a report from them in February. We will forward a copy of that to DENR and to you when it is available. We will be able to be more specific about the remediation timeline after we have negotiated the agreement with DENR.

With regard to the Old Sanitary Landfill (landfill site), as I said in my October 7 letter to you, planning for Carolina North must be further along before we can determine the appropriate remediation strategies. As you know, we are now moving into an active phase of planning for Carolina North.

In both cases, we will keep you informed about progress.

Very sincerely,

James Moeser
