

ATTACHMENT 6

List of Chapel Hill Neighborhoods with Underground Electric Facilities Information Provided by Duke Energy, February 14, 2003

The following is a listing of neighborhoods with greater than 50 customers in the town limits of Chapel Hill with underground electric facilities. It is not all inclusive. Some may have been missed. These numbers total between 6,000 and 7,000 customers. There are many smaller neighborhoods/developments that may add up to 1,000 more in total. Those listed as installed by the university may have been installed in the 60's although listed as 70's (our employee resource providing non detailed input into this information began working for the university in the 70's and was not sure what may have been installed in the 60's).
