

Mr. Horton,

Attached is the support for installation of traffic calming devices on Lonebrook Drive. Please reference the e-mail regarding this information that I sent to you today.

Thank you,

Larry Nobles

larrynobles3@juno.com

Mr. Nobles,
Our family supports the installation of speed bumps and stop signs to slow traffic on Lonebrook Drive. We have four children under the age of 13, and believe strongly that the safety of the children of this neighborhood far outweighs the need for vehicular convenience. Thank you for your investment of time and resources in this issue.

Subject: Fw: FW: Traffic Calming Projects

Mr. Horton,

As the resident who originally petitioned the Council to look at the speeding problem on Lonebrook Drive, I asked Kumar Neppalli to keep me informed in this manner. There were, in my opinion, some incorrect pieces of information suggested by Mr. Plow in his petition to stop the installation of the speed humps. I've drafted a letter/petition that will be circulated to all residents of the Northwoods V subdivision. It explains why I support the installation of speed humps and stop signs and attempts to clear up some inaccuracies (namely that I claimed to represent the homeowner's association of Parkside and Northwoods V subdivisions). Based on the response I get from this effort, I'll do one of two things:

1. If many petitions from Northwoods V residents are signed and returned to me supporting the traffic calming efforts, I'll forward them to the Council as evidence that there is majority support for the efforts. I'll ask that the speed humps be installed as the Council has mandated.
2. If there are few petitions from Northwoods V residents signed and returned to me in support of the traffic calming efforts, I'll defer to the majority opinion and modify my request to include only the installation of speed humps contained within the boundaries of Parkside subdivision.

In either case, the stop signs are already installed and I would suggest they be left alone.

I will complete the efforts described above and provide results to you by Monday, May 5, 2003. If this timetable does not fit with the Council's timetable, let me know and I'll try to speed up the process. As a matter of courtesy, I am copying Mr. Plow on this e-mail in an effort to unify the two subdivisions that are along Lonebrook Drive. I've also copied Dwight Smith, Parkside Homeowner's Association President. Should you require additional input please feel free to contact me. Thank you for your time and consideration in this manner.

Sincerely,

Larry Nobles
