Subject: Tonight's meeting -- UNC Master Plan

Mayor and Council,

As you listen to comments from the audience tonight, I would ask that you please keep in mind that there are still details regarding the Mason Farm Road area that have not been completely resolved. For example:

1. The location of the sidewalk and utility ditch. UNC is requesting an easement from property owners.
2. The height and accessibility of the fence that would limit access to the Mason Farm Road community, particularly during sporting/concert events.
3. Whose responsibility it is to police parking on Mason Farm Road during sporting/concert events.

There are other details, which I believe should be, and can be, resolved in a timely manner, prior to a final vote by the Council.

Thank you for your ongoing consideration and efforts.

Bruce
