Dear Mayor Foy and Chapel Hill Council Members,

I am sorry this letter is arriving so late but I just received my packet this weekend.

I am very stressed by the changes that the UNC Development Office wants to do.

I am absolutely opposed to having not only a parking deck but a chiller plant towering over our historic cemetery.

Also, with the shortage of student family housing in our town, I feel sure that 12 small units would serve the community better than 9 medium size ones.

(39)

Please vote against this plan
that is paving more than is needed
of our beautiful campus with parking
decks.

Sincerely,

Julie R. Coleman
