The Board of Aldermen, recognizing the initiative of the University of North Carolina in inaugurating the office of Sanitary Inspector for the Universityand the town, and its payment of the major portion of the Inspector's salary, has left the direction of the duties of the Inspectoralmost entirely to the University, and for that reason is without a history of what has been accomplished since the office was created. In planning the administration of the municipal affairs during the approaching college year, the Town considers a comprehensive survey of the work and accomplishments of the Sanitary Inspector during his tenure innthe past, and what is proposed during the coming year indespensible; also, it desires an expression of the University's opinion on what has been done already. The Mayor is requested to immediately submit this expression of the Town's views to the University and to invite its early attention to the same.
