MINUTES OF THE CALLED MEETING OF THE BOARD OF ALDERMEN OF THE TOWN OF CHAPEL HILL, N. C., MONDAY, MAY 17, 1937 AT 5:00 P. M.

Book 6, Page 584

A called meeting of the Board of Aldermen of the Town of Chapel Hill was held in the Town Office Monday, May 17, 1937 at 5:00 P. M. Mayor J. M. Foushee presided and the following Aldermen were present: Messrs. R. J. M. Hobbs, R. H. Wettach, P. H. Robertson, F. O. Bowman, P. L. Burch, and G. B. Hellen. Mr. A. R. Hollett, City Engineer, was also present.

The purpose of the meeting was to consider the grading and graveling of the streets which are to be surfaced later, and to pass on the Carr Street petition for curb and gutter work.

On motion of Alderman Burch, seconded by Alderman Hellen, the Board accepted and approved the petition for curb and gutter signed by the property owners on Carr Street, from Columbia Street to Pritchard Ave.

Engineer Hollett presented estimates of cost of grading and graveling the seven streets where curb and gutter have been or will be placed. He stated that the Cobb & Homewood contract could be extended to include cost of excavation where necessary and cost of hauling and compacting the gravel. The cost of excavation would be thirty cents per square yard; the gravel $1.00 per square yard, including hauling and compacting.

Approximately 2300 yards of excavation and 1500 yards of gravel would be necessary for the project, making a total estimated cost of $2200.

After a full discussion of the matter, Alderman Wettach made the motion that the Cobb & Homewood contract be extended to include curb and gutter work for one block of Carr Street and the excavation and graveling of the seven streets in the project at the cost figures presented by the Engineer. The motion was seconded by Alderman Hellen and passed by the Board, all members voting affirmatively therefor.

There being no further business, the meeting adjourned.

Respectfully submitted,

W. W. Thomas
